

The undersigned Anna Mastropaolo, Regulatory Affairs Manager for Cosmetica Srl,

**declares**

that the cosmetic products branded RVB LAB THE MAKE UP and DIEGO DALLA PALMA PROFESSIONAL:

- ✓ are in compliance with the current regulations regarding the production and the commercialization of cosmetic products (Regolamento CE n. 1223/2009);
- ✓ prior to placing on the market, they are subject to a safety assessment by a toxicologist expert aiming at safeguarding the health of the consumer, with a Cosmetic Product Safety Report to be drawn up;
- ✓ do not contain parabens, isothiazolinones, vaseline oil, triclosan, added phthalates;
- ✓ can be used by cancer patients

In particular, for cancer patients we suggest the use of skincare products of our SOOTHING line for SENSITIVE SKINS, rich in calming, anti-irritant and moisturizing active ingredients. They are formulated with an allergen free fragrance and each batch is heavy metal (nickel, lead,...) tested.

In faith
